---

Hi Sterg –

I just sent over the Powder Mill permit and RTC for NHDES review. I marked up the permit so you could easily find the responses that explain the changes (tracked). I also included a few comments in the RTC where EPA requires specific input from DES (e.g., on the compliance schedule issue).

I know you and Hayley will review the documents in full, but for other staff engaged on specific issues (e.g., Ted, Peg, Dave) it would be MOST helpful if we could get their input and thoughts on Responses to Comments in sections III.2 and VI (especially VI.2, VI.4, and VI.6). I know those guys are pressed for time with end of year budgets.

Thanks so much – I look forward to hearing your thoughts on the drafts. I am out next week on vacation but will be back in the office on Aug 31 if you have questions.

Danielle
